

Memers Kick Off Meeting

Say Hi with your LOCAL language

Where are you in the course?

What is st_memers?

This group gathers students world-wide, the idea is to explain concepts in an easy way like using memes, also I find people who having fun during Udacity scholarships are the ones likely to continue until the end, memers are also innovative. New students to Udacity scholarships are also feel lost the first days, so st_memers will be a good place to teach them that nothing complicated and nothing scary!

So the main idea learn while having fun.

Why?

- Break the complexity of the concepts!
- Keep the students going by having fun!
- Nothing is scary, it's just a course!

Text vs Memes

- Production and Dev tests are different.
- After shipping your code it may break in production!
- Docker came to solve shipping to production.

Text vs Memes

ML Engineer

My model accuracy was 99.99%

OpenVINO Toolkit

Speed is more important than accuracy in this context

WINNERS for the Meme Challenge [@Mehul](#) and [@Sadmi](#)

but they don't provide slack API key

Sadmi Jun 10 at 6:38 PM

@Mayur Kanojiya community managers ? (edited)

11072 thread !!!

Networking Time

- What is your name?
- Where are you from?
- What do you do? job/studies
- What udacity scholarships you pursued?
- Anything you want to mention?

Ideas Discussion!

We are more than a memers!
